BETTER THAN GOLD.

A DISCOVERY THAT MEANS MILLIONS FOR AIKEN COUNTY.

The invention of an Amateur Chemist that will Bring him Immence Wealth-A Process for Transforming Kaolin into

COLUMBIA. December 14.-A gentleman who registered at the Grand Central Hotel to-night has knowledge of a discovery which when fully developed will make the kaolin beds of this State infinitely more valuable than the phosin this direction, will in like manner tative of The News and Courier if he send in their subscriptions?

It is known that a fortune not to be reckoned by millions awaits the discoverer of a cheap process for the manufacture of aluminum. About a year ago Mr Emanuel applied himself to this preblem, and it is believed that he has arrived at its correct solution. The material which he used is the kaolin of Aiken County, the basis with which he worked sulphuric acid. On making the ington and submitted his processes to the scientists there, and now has his discovery secure from attack by the proper letters, patent and caveats.

Not very long ago aluminum was sold at about \$26,000 a ton, but by a process which was considered final the price was reduced at Pittsburg to two dollars and a half a pound or about \$5,000 a ton.

The startling announcement is made than there is for gold, the immensity of

cking accident occu at the Mill Street railroad crossing this afternoon, by which four persons were killed, one fatally wounded and Bill to prohibit express companies voritism in its distribution; first, to per- one seriously hurt.
